

## **English Course: Academic Writing for Inquiring and Research**

**Objective of Course:** This course offers to equip students with adequate skills required for research writing and writing inquires.

**Last date of application:** 1<sup>st</sup> December 2019

**Course Duration:** 16<sup>th</sup> December 2019 – 15<sup>th</sup> January 2020

### **Course structure:**

This is an academic writing course where the students are equipped to be adept in writing for research. Research writing is undertaken as a practical approach where the students learn from interactions among each other, instructors and guest lecturers. Students are given multiple projects to work on where they shall integrate topics, credibly cite using multiple sources and carry out academic research. Students are required to read and review multiple sources of literature for given projects and must skillfully present their views and be able to defend their position on the topic. The projects are reviewed with the students where they make the necessary changes and in the areas where they can improve. They are also required to present them in the class which is followed by evaluation for each individual project based on reading, writing and presentation.

**Total hours taught in lectures and lab/field work: 45 hours**

*This course accounts for 3 credits.*
